Audio Story

You are to produce an audio story designed to help you work on pacing, inserting soundbites, and broadcast writing. The story is an interview you will do with a college friend or roommate about their homework. You must have natural sound (perhaps them typing on a computer, sighing while reading, asking Siri what the population of the Czech Republic is, etc.) and two soundbites. The story is capped at 40 seconds.

Upload the audio file to Canvas, no need to include a script.

Due: April 19th, 5:00p.m.
